INTERIOR PAINTING

INTERIOR DESIGN

IS THE ART AND SCIENCE OF ENHANCING THE INTERIOR OF A BUILDING TO ACHIEVE A HEALTHIER AND MORE AESTHETICALLY PLEASING ENVIRONMENT FOR THE PEOPLE USING THE SPACE.

1. An interior designer is someone who plans, researches, coordinates, and manages such projects.
2. Interior design is a multifaceted profession that includes conceptual development, space planning, site inspections, programming and research, communicating with the stakeholders of a project, construction management, and execution of the design.
3. Our decorators are equipped with tools to ensure paint is evenly and smoothly distributed on whatever surface you require.

OUR SERVICES - BATHROOMS, KITCHENS, CABINETS, DINING ROOMS, LIVING ROOMS, SHELVING, CEILINGS, GAME ROOMS, PANTRIES, HALLWAYS, BEDROOMS, GARAGES AND MORE

PREPARATION : Below are the general steps we will take on your interior house painting project. Your situation may vary depending upon your needs as outlined on your Proposal.

At Bombay Painting Contractors we have found through experience that a systematic approach helps us to deliver the quality interior house painting job that we have promised you.

SET-UP : Items are placed in the center of the room and covered with clean, new plastic sheeting. All floors are protected with drop cloths.

PREPARE : Based on your requests, holes and cracks in ceilings and walls are filled; stains are sealed. and surfaces are scuff sanded.

PAINT : Repaired areas are primed and premium quality paint is applied to a uniform finish.

CLEAN : Furniture and accessories are moved back to their desired locations. Floors and carpets are vacuumed and swept. All of our materials are removed.

INSPECT : After our own inspection, you are invited to inspect our work and asked to complete the feedback card for our interior house painting job and the crew.

INFRASTRUCTURE AND TECHNICAL EQUIPMENT'S

IN ADDITION TO TOP-QUALITY APPLICATION EQUIPMENT, YOU MAY NEED SOME OF THE PAINTING TOOLS AND PAINTING MATERIALS LISTED BELOW IN ORDER TO SUCCESSFULLY COMPLETE YOUR PAINTING PROJECT.

IF YOU ARE LIKE MANY HOMEOWNERS, YOU ALREADY OWN SOME OF THESE ITEMS. DEPENDING ON THE NATURE OF YOUR PAINTING PROJECT, YOU MAY CONSIDER INVESTING IN SOME OF THE ITEMS BELOW.

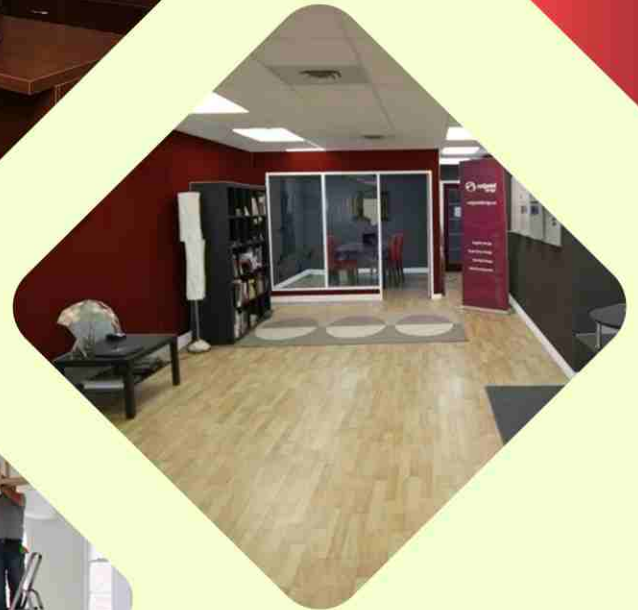

- **Step ladders and extension ladders** – to help you reach elevated areas.
- **Paint scraper** – to remove loose or peeling paint from wood, plaster, and other surfaces.
- **Triangular-load scraper** – to remove paint in small or tight areas.
- **Steel wool** – to remove corrosion from metal surfaces.
- **Bristle brush** – to clear loose material from masonry.
- **Wire brush** – to remove efflorescence and loose material from masonry, or to remove loose, flaking paint.
- **Putty knife** – to scrape away loose paint, or to apply filler.
- **Broad putty knife** – to fill in and smooth patching compounds in plaster and wallboard.
- **Glazing compound** – to replace cracked, broken, or missing panes of glass.
- **Spackling paste** – to fill nail holes and small imperfections in walls.
- **Long-handled brush** – to clean large exterior surfaces.
- **Scrub brush** – to remove mildew and dirt.
- **Sandpaper (various grits)** – to smooth and feather previously painted surfaces, or to roughen glossy surfaces so paint will adhere better.
- **Sanding block** – to hold sandpaper and help you sand surfaces to an even finish.
- **Tubes of caulk** – same as above (note that all-acrylic and siliconized acrylic caulks are paintable; silicone caulk is not)
- **Masking tape** – to protect window panes and trim from paint.
- **Paint guide** – to protect carpets and walls when painting baseboards and other trim.
- **Roller tray and grid** – to load rollers with paint.
- **Brush comb** – to clean paint brushes.
- **Paint pail** – to mix paint and carry it to the work site.
- **Drop cloths** – to protect furniture, floors, and shrubbery from paint.

- ✓ Totally Smell Free, Health Certified & Eco Friendly Products.
- ✓ Latest Sanding Machine which complete more work in minimum time without undulation, dust and hassle free.

BOMBAY PAINTING CONTRACTOR

JET WASHING

JET PRESSURE WASHING OR POWER WASHING IS THE USE OF HIGH-PRESSURE WATER SPRAY TO REMOVE LOOSE PAINT, MOLD, GRIME, DUST, MUD, CHEWING GUM AND DIRT FROM SURFACES AND OBJECTS SUCH AS BUILDINGS, VEHICLES AND CONCRETE SURFACES.

- ★ The volume of a mechanical pressure washer is expressed in gallons or liters per minute, often designed into the pump and not variable.
- ★ The terms pressure washing and power washing are used interchangeably in many scenarios, and there is some debate as to whether or not they are actually different processes.
- ★ A pressure washing surface cleaner is a tool consisting of two to four high-pressure jets on a rotating bar that swivels when water is flowing. This action creates a uniformed cleaning pattern that can clean flat surfaces at a rapid rate.
- ★ Hydro-jet cleaning is a more powerful form of power washing, employed to remove buildup and debris in tanks and lines.

AREA OF USE

Pressure washing is employed by businesses and homeowners to reduce allergies, minimize hazards, and improve aesthetics. A pressure washer is used to clean surfaces such as:

- ★ GUTTERS
- ★ ROOFS
- ★ DECKS
- ★ SIDEWALKS
- ★ PATIOS
- ★ DRIVEWAYS
- ★ SIDING
- ★ PARKING LOTS

Depending upon the surface to be cleaned, higher or lower pressure should be used, as well as the appropriate nozzle.

SPRAY PAINTING

1. Spray painting is a painting technique where a device sprays a coating (paint, ink, varnish, etc.) through the air onto a surface.
2. Spraying can be advantageous for tight timescale projects or hard-to-reach places but overall the results are a superior finish.
3. Of course, there's nothing to stop us using traditional rollers and brushes but often the preceding work has consequences that are far more important and valuable to the long-term result.
4. Bombay painting provide service Spray Painting in Pune has a wide range of products and services to cater to the varied requirements of their customers.
5. The staff at this establishment are courteous and prompt at providing any assistance. They readily answer any queries or questions that you may have.
6. Pay for the product or service with ease by using any of the available modes of payment, such as Cash, Cheques.

HOUSE PAINTING COLOUR BASICS

- Find the existing dominant color that you like, or wish to keep, in the room or on the house. On an exterior, this could be the color of the brick or stone, pre-finished windows, or roof. For an interior, it could be the color of your sofa, your flooring, or your window coverings.
- Determine what kind of feeling you wish to have in the room or on the home. Warm colors, such as red, orange, yellow or beige, can create an invigorating mood or add cozy intimacy to large spaces. They can help warm up a room that has northern or eastern exposure. Blues, greens, violets or grays, the cool colors, give a serene feeling and can add spaciousness to small places.
- The balance between light colors and deep colors should also be considered when choosing your house paint colors.
- Consider how complex a color scheme you wish to undertake. There are three main color schemes to choose from. Complementary Color are based on opposing colors. This scheme offers more contrast and can introduce both warm and cool colors into the area. An example would be the burgundy (Burgundy) complementing the three shades of green in our front door. Notice application of monochrome, analogous and complementary schemes with the cream window and burgundy panels.

BOMBAY
PAINTING
CONTRACTOR

EXTERIOR PAINT COLOURS TIPS

- Exterior Paint makes a first impression, an individual statement and can enhance curb appeal and even the resale value of your home. A creative color scheme can add enjoyment and value to your property.
 - Look for interesting architectural details, or add some, that can sparkle with a contrasting or accent color.
 - **Be observant** — drive through various neighborhoods, established and new, to see color in action. Make note of appealing exterior paint color schemes and adaptability to your own home.
 - **Define the entry.** Use exterior paint color as a "Welcome" sign to your home.
 - **Windows are the eyes of a home** — they can add or even define the character of a home. Decorating them lends crispness to the color scheme.
 - Consider the exterior paint colors that cannot change like roofing shingles, brick, slate or stone. Be especially aware of highly visible steep roofs. A charcoal gray shingle may have flecks of gray-green or gray-blue that can be found on a paint color strip and incorporated into the color scheme.
- Balance is important between light and deep colors, as well as warm and cool colors; consider not just the exterior paint color scheme, but all the elements that make up the surroundings.
